

Ecological Building Systems virtual training

- All training delivered by our qualified technical experts
- Qualifies for structured CPD points with attendance certificates issued
- Virtual, live training with opportunity for Q&A
- Free dedicated design review available with a technical expert
- Sustainable building solutions for retrofit and new build
- Topics repeated over the year so you don't miss out

Industry leading training
on new build and retrofit
construction methods
using sustainable materials

Virtual CPD and training calendar 2024

Version 1
December 2023

To find out more about training, visit ecologicalbuildingsystems.com/training-courses

January		
Wednesday 10th January	1-2pm	Airtightness and Active Moisture Management
Wednesday 24th January	1-2.30pm	Breathable Internal Wall Insulation Systems for Single Leaf Masonry Walls
February		
Wednesday 7th February	1-2pm	New Build Construction using Wood Fibre Insulation
Wednesday 21st February	1-2.30pm	Optimising Indoor Air Quality with Inventer Decentralised Ventilation Systems
March		
Wednesday 13th March	9-11am	The Green Register event: How to Internally Insulate Solid Stone and Brick Walls
Wednesday 20th March	9am-12.30pm	The Green Register event: Roofs, External Walls & Floors
Wednesday 27th March	9am-12.00pm	The Green Register event: Achieving Airtightness, Why and How
April		
Wednesday 24th April	1-2pm	Airtightness and Active Moisture Management
May		
Wednesday 8th May	1-2.30pm	Breathable Internal Wall Insulation Systems for Single Leaf Masonry Walls
Wednesday 22nd May	1-2pm	Airtightness, Weathertightness and Wood Fibre Insulation of CLT
June		
Wednesday 5th June	1-2.30pm	Optimise Building Performance with Bosig Phonotherm 200 Structural Thermal Bridge Solutions
Wednesday 19th June	1-2pm	Airtightness and Active Moisture Management
July		
Wednesday 3rd July	1-2.30pm	Breathable Internal Wall Insulation Systems for Single Leaf Masonry Walls
Wednesday 17th July	1-2pm	New Build Construction using Wood Fibre Insulation
September		
Wednesday 4th September	1-2pm	Airtightness and Active Moisture Management
Wednesday 18th September	1-2.30pm	Breathable Internal Wall Insulation Systems for Single Leaf Masonry Walls
Wednesday 25th September	1-2.30pm	Optimising Building Performance with Wellhöfer Airtight Insulated Attic Hatch Solutions
October		
Wednesday 2nd October	9-11am	The Green Register event: Introduction to Airtightness and Moisture Management
Wednesday 9th October	9-11am	The Green Register event: Airtightness - It's all in the Detail
Wednesday 16th October	9-11am	The Green Register event: Airtightness Specification Drawings
Wednesday 23rd October	9-11am	The Green Register event: Airtightness - Putting the Theory into Practice
November		
Wednesday 6th November	1-2pm	Airtightness, Weathertightness and Wood Fibre Insulation of CLT
Wednesday 20th November	1-2.30pm	Passive EcoWall: A Low-Carbon Building Solution for Timber Frame Passive House
Wednesday 27th November	1-2pm	Airtightness and Active Moisture Management
December		
Wednesday 4th December	1-2.30pm	Breathable Internal Wall Insulation Systems for Single Leaf Masonry Walls
Wednesday 11th December	1-2pm	New Build Construction using Wood Fibre Insulation
